**INFORMAL SHIRTSLEEVE CONFAB** was the feature of the evening Friday when U. S. Senator Paul Douglas (D) visited the Quad-Cities in his campaign for re-election. He is shown talking to Mrs. Janet Estes and George Hendricks of Mitchell, who were among the crowd of over 250 on hand for the "Citizens for Douglas" rally at Nameoki Village shopping center.

## Douglas Pledges Aid for Clean Air, Water

Emphasis on action to obtain tee! The talk by the Democratic "clean air and water" for the candidate for re-election was pre-Madison-St. Clair county area a ceded by selections by the Eagle. was stressed Friday evening by aires Kitchen Band and dancing U. S. Senator Paul Douglas in a and singing by the Mexican Horn talk before an informal gathering Society. In his talk, Douglas said that center. if state clean air efforts failed, Douglas spoke to an audience he would endorse federal action: "of about 250 persons at the Fr-He pointed out that Illinois com-day fish fry arranged by the munities are doing their part in "Citizens for Douglas Commit- this area to clean the Mississippi River, and that further federal action would be taken if Mis-souri cities failed to comply.

Touching on possible difficulty for Democrats to garner sufficient votes in counties north of Springfield, Douglas commented: "As soon as those northern Democrats get a concrete drive-way and venetian blinds, the husband and wife split their votes. And, as soon as they join a country club and the husband gets a tuxedo, they vote Republican."

Douglas also spoke on several bills pending in Congress. On the "truth in packaging" bill, he said a consumer should be told exactly how much is in a "jumbo" or "Super economy size."

He told the audience that during the present administration there has been a 23% boost in wages, resulting in an increase of 15 to 16% in purchasing power. He added that the Democratic party wants to reduce poverty by giving youth a chance with the present work-study program offered and a new GI Bill. Medicare, he pointed out, has become a reality under the present administration.

After the Senator's talk, Terry Francis of Granite City, who is area chairman of the committee to re-elect Douglas, expressed his appreciation for the large audience. Waldo Schellenger was master of ceremonies.

Earlier Friday, Douglas spoke briefly at the gate of Granite City Steel Co., and following his talks here, he went to St. Clair county where he pointed out that the Madison-St. Clair county area had been separated from St. Louis in federal labor market programs, which will provide added federal benefits for Illinois. He credited Congressman Melvin Price for carrying out this step.

## Traffic Commission's Efforts Reduce Accidents in GC

Continuation of Granite City's traffic. One of the most notable, traffic engineering program is being highly recommended to the city council by the Citizens' Traffic Study Commission, who point out reductions in the number of traffic accidents at intersections where revisions in controls have been made in the past year.

Effectiveness in the program also is reflected in the six-month traffic accident report for Granite City. A reduction in the number of crashes is noted from 779 for the first six months of 1965 to 761 for the same period this year.

In a report submitted to the council last week, the commission is urging cooperation of the city council and residents of the community to carry out the traffic safety program.

Commissioners point to the city's traffic engineering needs and to the accomplishments in the past year.

Special emphasis is placed on the need for advice of a professional traffic engineer. In July of 1965, the city retained the firm of George L. Crawford & Associates at a cost of \$400 for a year's engineering work, and the commissioners request that the city budget for a continuation of professional service.

Accomplishments in the year's time have been to reduce the continuing mounting accident rate and to work toward elimination of vehicle congestion as well as promote safety.

**Members of Commission**  
Members of the citizens' commission are—Dale Arnette, chairman; Melvin McKay, vice chairman; Paul Morris, secretary; Roy Williams, David McFarland, Ralph Strain, Gerald Walters, Bernard Miller, Jr., Leo Reid, Elmer Jackson and Aldermen Samuel Whitmer, Earl Thompson and Gerald Pernley.

"Cooperation is needed from the citizens and city government in promoting project which yet must be undertaken and in supporting the changes which have been made to date."

**City's Traffic Needs**  
The city's needs for a proper traffic engineering program were outlined by the commissioners as:

1. An evaluation of all on-street parking controls.
2. Proper off-street parking facilities.
3. Development of a comprehensive traffic ordinance.
4. Proper enforcement of all traffic laws and controls.
5. A sign modernization program.
6. A comprehensive street improvement program.
7. Continuation of the general traffic engineering program that has been started.

**Year's Accomplishments**  
Reviewing accomplishments of the past 12 months, the commissioners noted—

Almost all intersection controls in the city have been inventoried and evaluated recommendations for changes have been made at a great majority of the intersections. The council has adopted almost all these recommended changes, and a record has been kept of these intersections, showing a reduction in the number of accidents.

Accident statistics compilation has been resumed by the police department to aid the traffic engineer and are now being used to help reduce accidents through engineering and enforcement.

Several intersections in the city have new pavement markings to better delineate lane usage for

One-Way System  
A new system of one-way streets has been proposed by the commission and passed by the council, although a court proceeding is now pending over the validity of the passage.

The traffic engineer and commissioners also have recommended a revised traffic signal progression for Niedringhaus avenue, along with signal lights at Niedringhaus avenue and State street and for signals at 20th and State streets.

Commissioners and the engineer have reviewed but steps throughout the city and changes have been made to improve locations. Also all school zone signs have been modernized and the zones completely redesigned. Miscellaneous requests for parking controls have been studied and recommendations submitted to the council.

Continuation of its report, the commissioners said—  
**Look at Full Picture**  
"Certainly the city council should look at the entire picture rather than looking at one selected spots when evaluating and deciding upon a recommended plan of action."

"One case in point is the one-way street system in which only a small segment of the community has expressed opposition. The business community and a good majority of the general citizenry have indicated approval of this plan."

"The city council should understand," the commissioners continued, "that it actively needs the advice of professional traffic engineering help. If the community intends to grow, it must have a sound transportation system and this can be accomplished through the cooperative effort of all members of the community."

"It would seem to this commission that the city council would welcome advice from its professional engineering consultant and the Citizens' Traffic Control Commission, if for no other reason than proof that the aldermen are active in the overall interest of the community as well as that of their particular wards."

**Future Growth Could Suffer**  
"Certainly, if this advice is not heard, the city will suffer much in its future growth. It is the commission's feeling that the council indeed should consider the general community's welfare as well as that of small protest groups."

"This is not to be meant that protest groups should not be heard and their requests carefully considered, but every decision on transportation and control of it should be made with the general good of the community in mind."

"It is this commission's feeling that the usual level of professional traffic engineering is available to the city council and the commission would certainly recommend that they avail themselves of this tool."

**Woman Bitten by Dog**  
Edna Griffin, 1130 Calhoun street, Venice, was bitten by a dog on the lower leg shortly before noon Thursday and was treated at St. Elizabeth Hospital. She was released after treatment.

Mrs. Ruth Garrett, owner of the dog, was ordered to take the dog to a veterinarian for ten days observation, police reported.

## Six-Year-Old Freda J. Brake Dies of Cancer

Cancer of the liver was fatal to six-year-old Freda Joyce Brake, daughter of Mr. and Mrs. Charles E. Brake, 2206 Lee avenue. The child died at home about 9 a.m. Sunday.

She had been in failing health about six months and had undergone surgery at St. Elizabeth Hospital in November. Freda had attended kindergarten at Logan school before her family moved to the Lee avenue address about nine months ago.

The girl was born in Erin, Tenn., and the family lived here about a year. Mr. Brake is an employee at the Moss Cressole Co. in Madison.

Survivors include two sisters, Treva Lois, 8, and Rita Gay, 2; her grandfather, Leonard Brake, and a grandmother, Mrs. Mary Luffman, both of Dover, Tenn. Funeral services will be held at Dover. Further information is given in today's obituary column.

**Budget Cutting Fails; Only 4 GC Aldermen Show**  
Granite City's budget-cutting session Friday night failed to materialize.

Only four aldermen, the city attorney, comptroller and a substitute city clerk were present for the 8 o'clock start. They waited 10 minutes and then left. It takes nine aldermen to make up a quorum.

Aldermen Paul Rutledge, chairman of the Finance committee, who called the special meeting during last Tuesday's session, said he planned no further special meetings.

"It looks like it will be another last-minute presentation and quick adoption for the budget at the July 18 meeting. I can't understand this. They all told me Tuesday they'd be here tonight," Rutledge remarked.

Those present were Aldermen Rutledge, Fry, Sternberg and d Whitmer, along with City Atty. Allen, Comptroller Stevens and Mrs. Virginia McLeister, who was substituting for vacationing City Clerk Pendleton.

The budget still does not include any salary increases for the 134 city employees.

Rutledge had hoped the council would at least begin to trim "some of the fat" from the \$287,885 special improvement projects now included in the record-breaking \$2,254,746 budget.

Chlyde Warford, 1806 State street, was arrested at his home Thursday on a battery charge. The complaint was signed by George Cox. Warford pleaded not guilty and was released on his own recognizance pending a hearing.

## Cherry Bomb Explodes Injuring Youth, 14

Roger Miller, 14, of 2134 Cleveland, suffered burns to the hand, forearm and chest when a cherry bomb he was holding went off at 9:15 p.m. Thursday. He was treated at St. Elizabeth Hospital and was released.

He told authorities he found the explosive in a driveway at 2140 Cleveland blvd. It did not have a wick, so he took a wick from a firecracker, placed it in the cherry bomb, lit it and it exploded in his hand.

### Bethel Comm. Loses 1st Church League Contest

With two forfeits and one shut-out, Friday's Church League action might seem comparatively restful. But far from the fact, Bethel Community lost its first game of the summer, 16-9, to West 2nd Baptist, putting its record at 7-1 in the won-lost column.

This first place standing is only one game ahead of second place Niedringhaus Methodist who shutout Creighton Emmanuel by a 6-0 score. Niedringhaus now sports a 6-2 log, while Creighton, with five wins and three losses is in fourth place. Community Heights (Assembly of God), in winning a forfeit victory from seventh place Second Baptist (2-6), upped its record to 6-3, tying West 2nd for third place. First Assembly (3-5) went ahead of Central Christian (2-5) in the standings, taking fifth rung on the ladder, after receiving a forfeit win.

Melvin Osborn tripped twice for West 2nd in their win over Bethel. Five singles and two doubles in a four-run second inning and three tallies in the seventh, on two errors and two walks, provided the margin of victory.

Niedringhaus, who had as many hits as it did runs, received a solo home run in the second inning from rightfielder Glenn Wolfe.

### Pontoon Crushes Madison Baptist In Church Loop

With Harry Ellsworth providing four homers and Al Crawford and Bob Diekmeyer each homering, the Pontoon Church of Christ beat Madison Baptist 21-6. The Quad-Cities Church League game was played Thursday night at Wilson School.

First Church of God won a 7-0 forfeit game from St. John Lutheran. This game was scheduled at Lake school Thursday night.

Standings in the league, which ends its schedule July 21, are: Black-EUB 6-2, Nemoeth Methodist 5-2, Third Baptist 5-2, Suburban Baptist 2-4, Blue-Pontoon Church of Christ 3-4, Madison Baptist 2-6, St. John Lutheran 2-4, First Church of God 0-4.

### Misfits, Drive-In Tie for 1st Place

The Misfits upset Drive-In Laundry Friday night in Wilson Park Girls League play 19-16, in a game that put the two teams in a tie for first place. Each now has a record of four wins and one loss. Eva Horn and Kathy Thomas, who homered, stroked four hits apiece for the Misfits, while Judy Bausch and Vannie Peppers had six between them for the losers.

Tommy's Gasheous Gang defeated Maddox Motors-Plaza Scooba-Dans by a 19-4 count. The Gasheous Gang had 15 safeties, including two by Cheryl Caudron. Vickie Simmons of Maddox scored three times. The winner's record is now 2-3, and the loser's slate is 3-2.

In a girls' league game Thursday night, the Quad-City Putts celebrated their new name (they're now known as Burger Chef) by trimming Sebold Concrete 24-14.

Homers by Mary Ritchie, Sandy Allen and Cookie Stude led the way for Burger Chef, who Slater hit triples for Sebold, losers for the fifth time in as many starts.

### East Alton Raps Hearts

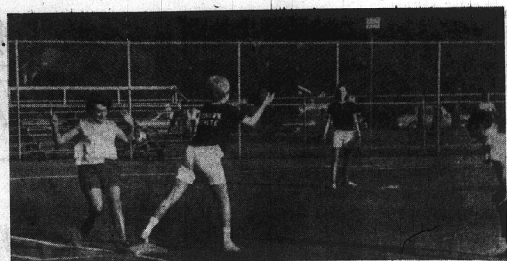

The combination of Larry Bellm and a fired up East Alton team was too much for Hearts-Liberty Home as the Granite Cityans lost a 1-2 1/2 game at East Alton Saturday. The Inter-City League contest had been postponed earlier in the season.

Ed Opich's charges were down 8-0 before they could mount any kind of attack—this in the third when Jim Cromer walked, advanced on a fielder's choice and Jim Rain's single, and scored on an error.

Jake Hinterser doubled in the sixth and Adrian Rains singled in the eighth, but the run in the third was all the Hearts could muster off the six-hit pitching of Bellm.

East Alton remains in last place in the Blue Division with a 4-8 record; the Hearts are still third in the Red Division with a 4-8 mark.

"SHE'S ON THERE!" yells umpire Bill Duncan in this Wilson Park Girls' League action. The park is enjoying its largest participation of girls' teams in several years with a half dozen squads competing. The season closes July 29. First baseman Colleen Robertson is receiving the throw; the pitcher is Mary Abbott. Runner is Carol Chappel, wife of park athletic director Leon Chappel.

### the downstate fisherman

Once again it's Crab Orchard Lake where the action is, provided you are either a rank amateur with lots of beginners' luck or an old pro with lots of Crab Orchard knowledge.

Otherwise it was a hot week-end, weatherwise, nice to be on the lakes and streams of Southern Illinois but no great shakes for adding to the ledger.

Take the case of the amateur. Mrs. Margaret O'Hara of Carbondale was on her second plus cast expedition, with her husband, George, Anthony Hall custodian at Southern Illinois University. Using a Bomber, she caught three bass on successive casts and, when darkness fell, had boated 11.

George, meanwhile, had been so busy removing fish from her boat he had little time to fish himself. When he finally grabbed his rod to make a cast, he forgot about the slime on his hands and promptly tossed rod and all into the lake.

15-Bass Holiday Catch

Ed Charles of Carbondale, whose fish census of Southern Illinois lakes while a student at Southern Illinois University nine years ago occasioned the birth of the Downstate Fishermen's Guide, still is cashing in on his specialized knowledge.

Using a blue plastic worm (the color is his preference, not necessarily the fishes') he caught

15 bass during the holiday week-end. Ed reports he anchors in deep water just off the famed "underwater islands" in Crab Orchard Lake, tosses his line into the shallows, and makes it crab off the shelf into the deeper water.

Al Peithmann connected with ten bass last week, three going to the top a limit string. Dewey New, Orchard, one of the largest of this species reported from there, apparently got to Devil's Kitchen lake where Norman Schmitz of Belleville had a six-pounder to the top a limit string. Dewey New, hold of Herrin also had a limit string topped by a 4 1/2-pounder and Elmer Pickering of Ava had ten up to three pounds. LeRoy Higgins of Herrin brought 50 bluegill to the boat dock, one weighing 1 1/4 pounds and the smallest nearly a half-pound. He was using crickets.

Little Grass Lake Busy

Little Grass Lake entertained hordes of weekend campers and fishermen with good yields of crappie and a sprinkling of bass. Don Heaton and Bill Turley of Springfield caught 228 crappie. H. H. Brown of East St. Louis caught 181; T. F. Mathews of Cape Girardeau caught 80 and Fred Thomas of Salem, Mo., caught 15. A 5 1/2-pound fish by Helen Wright of Carbondale headed up the bass department.

Bill Johnson of West Frankfort caught 10 and Oliver and Hazel Rooster of Columbia boated five. Horseshoe Lake in Alexander county has slowed down, according to reports from the boat docks. Regulars are finding bluegill and crappie but the occasional fisherman spends most of his time looking for the right spot.

The Mound City sandbar in the Ohio River again is right for striped bass fishing but the yield has slowed down.

The State Conservation Department reports bass fishing is good at the Washington county conservation lake near Nashville, fair at the S. A. Forbes State Park lake near Kimmunity, and average at Ramsey Lake in Fayette county.

State biologists have reported "tremendous spawning success" of undesirable yellow bass and a heavy sand population in the DuQuoin city reservoir. They said the best way to bring the lake back into proper balance would be to kill all the fish there abates horse show and start over again.

### Enters Pony in Show

Edward Ennis, Rural Route One, has entered his Jeri Lynn's Wild Child in the Shetland Pony Roadster class of the 21st annual Hillsboro, Mo., Horse Show and Festival. The event will be held July 28-31 and includes a far older novices who cannot compete with either the variety or younger swimmers.

### Indy 500 Flavor in Local Racing Event

Gary Bettenhausen, son of famed Indy 500 competitor Tony Bettenhausen of Tinley Park, Ill., is among the list of drivers coming here for next Sunday's 110 Offy Midget race at Tri-City Speedway.

The United States Auto Club national champion event was originally set for June 12 but weather intervened. Young Bettenhausen and many other champion drivers entered originally are coming in for the affair.

Five-time IMCA national champion Bobby Grim of Indianapolis, 1964 USAC champ Mel Kenyon from Davenport, Ia., 1963 USAC 110 Offy champion Mike McGreaver out of Los Angeles and 1965 UAR champion Ray Elliott of Chicago—all are entered in the event.

Web Spalding, now racing professionally, will perform for hometown fans in the Chicago-owned George Hopkins car, formerly driven by Tony Bettenhausen.

Joliet, Ill., driver Bob Tatter-sall, a champ for the past three years in Australia, where he winters, is another entrant.

Kenyon finished fifth in this year's crash-riddled 500. Grim had his car demolished in the new famous first-lap mishap, and Congdon was a 500 rookie this year.

Time trials for the event are set for 7:30 p.m. with races going at 8 p.m. Top event of the program will be a 40-lap feature on the half-mile oval.

### Tri Minnow-Meet Paddlers Thump Won by Paddlers Webster Groves In Swim Match

The third annual Minnow-Meet was won Friday night by Tri-City Paddlers Swim Club when it defeated the Town and Country (Collinsville) and Montclair swim clubs by a 230-150-58 score.

This meet is held every year by the clubs to develop young swimmers who are not able to swim in the older varsity atmosphere. Events for youngsters age 6 & under, 7, 8, 9 and 10 are all clocked for a regulation distance of 25 meters.

Swimmers from the 6 & under group compete in only the freestyle, while the remaining four age brackets have the four major strokes to contend with—breast, freestyle, butterfly, and back—as well as the relay events.

John Barth (8 & under) won the freestyle in his division with a :22.5 timing. Sally Skirball (10) won the same event in the girls running with a :20.0 time.

Greg Terrell and Greg Strain were the double winners for the tourney. Terrell won the 10-year-old breast stroke and butterfly events with his best times of 1:01.28 and :23.4. Strain, a swimmer the 7 age-bracket, won the freestyle and butterfly. Paddlers swept all six of the relay events—8 & under girls and boys, 9 girls and boys, and 10 girls and boys—but Montclair had its strength in the butterfly and backstroke.

The Paddlers will sponsor another Minnow-Meet in the near future, along with a "B" Meet for older novices who cannot compete with either the variety or younger swimmers.

### Deadline for Entering Cue Center Event

Today is the deadline for filing an entry in the July 18-23 Tri-City Cue Center tournament. Entry fee is \$2.

There are two classes of competition, 21 and over and under 21. \$150 in cash prize money is being awarded to the top three players.

The journey is to be run on two tables simultaneously, with two doubles teams. Hours are 8 p.m.-9 p.m. each day. The game is Point 1 Continuous Play pocket billiards, with a maximum of 100 points. There are five penalty provisions: one point for scratching; one point for missing the called shot; two points for failing to drive two balls and the cue ball to the rail on the break; and a one-point penalty for missing a safety.

A safety is called when the player realizes a shot is impossible. He is required then to hit the object ball and drive the cue ball to the rail.

Misses Can Be Rough

Another penalty of 14 points is involved when, after missing two breaks, the player fails a third time to drive two balls and the cue ball to the rail.

He can, therefore, be 18 points in the hole at the onset.

This actually happened to a player in last year's tournament, according to Tri-City Cue Center owner Walter Ziegler.

### 19 Home Runs Spice Open A League Games

Joe Hauptmann, George Moore, Joe Hiles and Terry Dulko each homered as Sammy's Tavern won its fifth game in eight starts and pounded out a 137 victory over the Madison Honorary in Wilson Park Open Class A games Thursday night.

Sammy Antaki, Jess Ybarra and Grant Takmanian had homers for Mexican Honorary, now 3-4.

Bob Jones unleashed a seventh-inning homer to lead Liberty Home to its sixth victory in seven games and a 9-6 win over Local 50, Carl Wortham and Tom Grady had home runs for the team who now show a 2-6 record.

Polish Hall pushed its league-pacing record to 7-1 in downing Roxzycki Realty 10-8. Garland Horn and Paul Mosby bled roundtrippers for Roxzycki, now 4-4, while Frank Friend homered for the winners.

Club Delmar chalked up its second win in eight games by beating Falstaff 18-1. Bill Seago had two homers for Club Delmar and teammates Phil Kindle, Mike Sikora and Rick Smallwood each hit single circuit clouts. Ron Groggway homered for Falbe, the Paddlers' shore in all, another team with a 2-6 mark now.

### Girls' League All-Star Tilt Next Saturday

This year's Girls' Twilight League All-Star game will be played this coming Saturday night at the VFW 117 Park just off Route 157 in Caseyville. Game time is 8 p.m.

Four girls from the local Venice-Cahokia squad were picked for the West Division team—shortstop Kay Squires, third baseman Sue Range, catcher Sue Watkins and second baseman Donna Range.

Maryville Cassidy Casey manager Francis Wile is helming the West Division team while Collinsville Rockettes helms Elmer Hazzard is heading up the East team.

The girls play a very fast brand of softball using players. League games are seven innings but the All-Star tilt goes nine.

## Retailers

solicitor and the group he is representing, and gives the date on which the application was approved and the dates during which solicitation is to be conducted. Each card specifies that "this is not an endorsement" but rather an authorization, based on objective criteria.

### In the Project Needed?

Deciding factor in the screening is whether there is a need within the Quad-City community for the particular program seeking financial support. Not every solicitation qualifies in this regard, and some involve out-of-pocket costs, pressure and scare tactics, the committee points out.

### How to Save—13 Easy Lessons

1. Don't deal with an individual solicitor unless he, or she presents an authorization card from the Public Solicitation Committee.

### Don't Believe Everything

2. Don't believe everything the solicitor says just because he or she makes a good impression.

### Don't contribute or buy just to get rid of a solicitor.

### Don't pay for advertising in advance; demand proof of publication.

### Don't sign subscription lists; they may not always be honest.

### Don't give or agree to any contributions or agree to any advertising or the purchase of tickets over the telephone.

### Don't be afraid to say "No."

### Don't forget to check with the Retailers or Chamber office; a solicitor doesn't have a solicitor's permit and an authorization card.

### Exempted Activities

The United Fund, newspaper advertising, admission tickets for actual use, and veterans' sales of poppies and postcards are not covered by the screening, nor are ticket sales for local grade school, high school and college events staged for entertainment of the public (athletics, music, plays, etc.). In other words, they are authorized without needing specific approval of cards.

### Institutional campaigns for churches, lodges and groups when restricted to one membership also do not require authorization.

### The screening is intended to aid member firms and the general public. Both are the frequent targets of schemes which are not bonafide or beneficial to the organizations have concluded.

### The policy also will suggest to organizations, planning to solicit, will generally be granted.

### Authorization will usually be given to five types of requests with each case decided on its merits.

### 1. Requests of a humanitarian nature not limited to a special group of beneficiaries as a class.

### 2. Requests for the general civic or social welfare where the handling of monies is open to public examination.

### 3. Requests from any group which serves the people without regard to their affiliation with it, providing the purpose and use of funds is clear, is not self-beneficial, is not otherwise conflicting with the solicitation policy, and provides for public examination of use of the money.

### 4. Any collection wherein the

contributors receive appreciable and direct benefits themselves, but not otherwise conflicting with the general policies.

### 5. Requests for outright donations in preference to devious schemes of advertising, chances or subterfuge.

### General policy is outlined as follows:

### Strengthen Present Agencies

"A solicitation of the general public should be undertaken only because an unmet need exists, not because someone desires to raise money."

### Entrance of a new group into the solicitation field is discouraged by efficiently-managed organizations and cannot be met by strengthening those agencies.

### Appeals for special philanthropic purposes, which are of interest or benefit to only a particular group or denomination, should be answered by that group or denomination rather than by the general public.

### The public should be asked to donate, not to buy something, in order to help a worthy cause.

### When an appeal for support is disguised as a sale, it usually means that only a part of the money which the public believes it is giving to a cause actually goes to the cause. The committee opposes the collection from the public of a large sum in order that a cause may receive a small sum.

### Does the Ad Produce Results?

"It strongly urges all persons to decline to buy advertising, merchandise or tickets upon any basis other than the actual commercial value of the advertising merchandise or tickets."

### "Tag days are considered generally objectionable, and the committee does not encourage them."

### "All requests for solicitation authorization must be in writing and supported by such documents as may be requested by the Public Solicitation Committee of the Retailers Association and the Chamber of Commerce."

### Standards to be Met

Authorized organizations must maintain the following standards:

### 1. The organization must be incorporated as not for profit and have a responsible and satisfactory local management. Its board of directors shall meet at least four times a year and serve without compensation.

### In case there is no such local management, the sponsors or managers of an out-of-town organization desiring to solicit in the Tri-Cities region must work conclusively that they have a substantial interest in and benefit from their activities on the part of Tri-Cities citizens.

### 2. The accounts shall be audited annually by public accountants and such audit reports made public.

### 3. The organization must maintain a sufficient and competent staff to handle the program in accordance with the recognized standards of work. (The auditor's report may be satisfactory, yet the philanthropic work may be so inefficient, or so useless to the community that its support is not justified.)

### 4. The organization must be large enough and its work important enough to justify appeals to the general business community for financial support.

### Cooperation, Efficiency

5. The organization shall agree to co-operate with other agencies promoting efficiency and economy of administration in the social and civic welfare of the city as a whole and in preventing duplication of effort. Those organizations engaged in relief with the township relief supervisor and/or the United Fund agency.

### The organization shall fill a need not already well filled by an existing agency. Those who desire to inaugurate new philanthropic organizations shall give listed briefly for obvious purposes of obtaining money.

### The committee suggests that the limitation of merchandise prizes and ticket sales for bazaar be limited to the sponsoring organization. It takes a dim view of telephone solicitations and any out-of-town solicitors which do not obtain authorization cards.

### While recognizing that conventions have value, the committee asks groups planning to invite solicitors on a commission basis, first, if expense does support by selling method with a general mailing list, or conducting lotteries, are not authorized. The committee will refuse to continue authorization of an agency when the expenses of an entertainment are disproportionate to the results.

### 6. The pyramiding of endowments, or the continuous raising of money when more is needed, worthy of support."

## Levee District

The St. Clair county section of the levee district is made up of about 80% of East St. Louis township along with Centerville, Canton and Siles townships, all heavily populated.

On the last taxpayers of the Madison area were billed for 34% of the levee district's total tax bill, in 1966 the remaining 66% was billed against St. Clair county taxpayers of the levee district area.

In the following year of 1967, assessed valuations in both counties increased considerably, to \$170 million in Madison county and to \$331 million in St. Clair county, for a total district assessment of \$502 million.

Because the St. Clair county increase outstripped the Madison county increase in that one instance, Madison county again assumed 84% of the district's total tax bill.

### Area's Value Jumps

In 1966, however, the Madison county levee district valuation jumped \$33 million dollars from the \$170 million figure of 1965 to \$203 million. The St. Clair county portion of the levee district valuation dropped \$16 million to \$315 million.

This meant that for 1968 tax year, Madison county taxpayers in the levee district paid 41% of the district's total tax bill, an increase of 7% over the previous years of 1966 and 1967.

The Madison county valuation dropped back to \$200 million in 1969, an increase of 2% over the previous year, while that of the St. Clair county valuation increased to \$313 million, a 4% increase over the previous year.

In 1961, the Madison county valuation moved upward again, this time to \$220 million, while the St. Clair county district valuation dropped \$4 million to \$320 million.

The following year the Madison county assessment jumped another \$5 million to \$225 million, while St. Clair county's increased only \$1 million to \$321 million.

During the three-year period since the 1962 tax year, 50% of a computation of this population against the total Madison county tax bill produces a per capita cost of \$14.60 for the levee which pays taxes in the levee district.

St. Clair county, on the other hand, has a total population of 126,330 in its portion of the levee district. This includes Centerville township, 39,048; Canton township, 18,810; Siles township, 21,031; and 8,641 of East St. Louis, 65,369.

These figures produce a per capita cost of \$10.76 for the St. Clair county section of the levee district.

### Moves Up Again

Madison county's levee district valuation jumped in 1966 by \$4 million to \$220 million, while St. Clair county's assessment dropped \$4 million to \$315 million.

For the 1965 tax year, the Madison county valuation rose other \$4 million to \$224 million, and St. Clair county's valuation dropped another \$2 million to \$320 million.

In the ten-year period, this gave Madison county 43% of the total assessment and tax bill.

The disproportionate aspect of this division of cost is seen in the fact that the great majority of work done by the levee district

## Meeting Great People

John W. Allen  
Southern Illinois University  
Anyone drifting through a reasonably long lifetime naturally meets many interesting people. Some of these are by planned meetings while others just happen. Some totally unplanned meetings were mentioned earlier. More purely chance meetings are related here along with others half planned. Some of the half planned kind occurred in the spring of 1919. One of these was when an opportunity came to attend a reception at the Astor home in London.

Lady Astor, a woman of beauty and renown, had grown up as Nancy Langhorne, member of a noted Virginia family. In 1903 she married Lord Astor, a British nobleman of American ancestry, and thus became Lady Astor. With these attachments to an American background Lady Astor evinced more than casual interest in members of the American armed forces at that time in rather plentiful supply in and about London.

She arranged receptions to which she invited men assigned to the American Expeditionary Forces to attend London University. By a rare turn of good fortune the writer, then a student in London University's New College, Hampshire, was invited along with about a hundred others.

There was a star cast of honored guests that included numerous individuals of distinction in Britain, and so far as that was concerned, in the world, the kind of persons that the ordinary American doughboy, a term then used instead of G.I.'s as in world war II, would not ordinarily have opportunity to meet.

**Remembers World Notables**  
In this group of honored guests several of world note are vividly remembered. Among these was our own General Pershing, Commander in Chief of the A.E.F. He then was riding the wave of renown justly due him for military services to his own country and to the world. General Bullard, Canadian Chief of Staff, and a couple of Admirals also were there.

British royalty was represented. Among those of high station were the Duke of Connaught, brother of King George V. The hosts, Lord and Lady Astor, naturally were present as well as Lady Florence Mountbatten, the Duchess of Marlborough and others perhaps as well known.

Among British officials in high office was Lord Reading, then Britain's Lord Chief of Justice who later went to serve for years as Viceroy to India. There were others, memories of whom have been dimmed by 47 intervening years.

Few are remembered more vividly than Lady Astor. Her calmness, poise, and impressive but not oppressive presence, remain clearly remembered. The

friendly and attentive manner in which she took a small group into which I somehow managed to be included, about to meet honored guests and left us to talk with Lord Reading. That attention gave to this old U.S. Marine, who had been most gracious, Lord Reading chatted with us informally for some moments, expressed appreciation of American presence and help. That did nothing to lessen our feelings that the thoughtful British were indeed grateful.

Perhaps the one we doughboys most appreciated and enjoyed among the honored guests was the poet, Rudyard Kipling. It was delightful to hear him chat with his circle of American servicemen. It was easy to visualize him as the author of "Barrack Room Ballads." It was not so easy, however, to guess, had we known that the smallest man with the great black eyebrows also was the one who had written the poem that highlighted the experience and help. That did nothing to lessen our feelings that the thoughtful British were indeed grateful.

That hour speech with Kipling and others in the circle about the lighted hearth in the Astor's London home will without doubt remain a treasured memory. A highlight of a lifetime. So long as memories linger those of the reception attended on that foggy evening will be cherished. Perhaps the fact that my favorite girl friend (American) became Lady Astor's private secretary, during the campaign that won for her a seat in the House of Commons added an element of interest.

The skirling of bagpipes all ways will bring visions of the regiment in which the Prince of Wales had served in world war I approaching on the street in front of the Buckingham Palace.

The head of the column halted in front of the receiving stand on the balcony of the palace. The Prince dismounted and went to join in review of the stand to join in review of the regiment that followed. Opportunity was thus had to see three kings of Britain standing together. They were George V, Edward VII and George VI. Opportunity came later to shake hands with the Prince of Wales and his wife, the Duchess of Windsor. But those are other stories.

We also walked down to the presence when the King went to greet Prime Minister Lloyd George upon his return from Paris. He had signed the peace treaty to end world war I.

**Fire Causes \$200 Damage  
At Residence in Venice**  
Fire caused by overloaded wiring leading to an air conditioning unit caused damage of about \$200 Thursday night to a house occupied by Louis Dandridge, 321 Slough road, Venice. Venice firemen received the call at 10:10 p.m. They said damage was confined to a portion of the living room wall and attic.

Venice firemen also received a call at 2:30 p.m. Thursday night from a woman who reported excitedly that a house was on fire, then hung up without giving an address. Firemen received no further call and recorded it as a false alarm.

**Fined on Two Charges**  
Oscar Ross Jr., 1100 Logan street, Venice, was fined \$20 and costs for improper use of his state license and \$20 and costs for driving with an expired license in magistrate's court Thursday. The charges were filed last Wednesday by Venice police.

**Man Fined \$95, Costs**  
Andrew Darden, 205 Garner road, Venice, was fined \$95 and costs Thursday in magistrate's court on a charge of driving without a license filed June 30 by Madison police.

**William Nicol, 62,  
Dies of Cancer**  
William Nicol, 62, of 2268 Grand avenue, died Friday at 11 a.m. in Jewish Hospital, St. Louis. He had been ill with cancer for one year, and was a patient at the hospital for eight days.

Mr. Nicol was employed as a stocker by the Granite City Steel Co. in his 38-year residence in Granite City. He was a member of the First Presbyterian Church and Moose Lodge No. 272. His wife, Sarah, died in 1962.

Surviving are two sons, Kenneth and John Nicol; a daughter, Mrs. Carol Ann Morgan; four sisters, Mrs. Kate Smith, Mrs. Barbara Wood, Mrs. Mary Nomi and Mrs. Jeanie Teller; four grandchildren. All survivors live in Granite City.

Funeral services were held this afternoon. Further information appears in today's obituary column.

**Faces Indecency Charge**  
A hearing was set for Aug. 1 for Don Lee Govo, 22, of 3606 Madison avenue, who pleaded not guilty to a charge of public indecency after he was arrested at 2:22 p.m. Wednesday. A short time later he pleaded guilty in magistrate's court to a previous charge of public indecency and was fined \$20 and \$5 costs.

The Granite City unit of the Madison County Homeowners Extension Association held its monthly meeting Wednesday in home of Mrs. William Guth, 2170 Northland drive.

A buffet luncheon consisting of chicken and salads, complemented with a variety of vegetable and fruit gelatin salads, was served, with angel cake as dessert.

Mrs. Guth conducted a tour of her new home for those present, followed by the business meeting.

## Miss GC Getting Ready for Miss Illinois Fete at Quincy

Attitudes can describe a state of mind, a mood or an emotion, but when speaking of Lois Jeanne Huelskamp, Miss Granite City for 1966, the only disposition that necessarily be mentioned is that of "meaningful friendliness."

Proud, yet unpretentious, sprightly, but self-restrained, this five-foot, five-inch beauty has the poise and dignity of the queen that she is. But, like those of many others, her "Rome" was not built in a day.

Miss Huelskamp was born 18 years ago in Granite City and has been a resident since. En route to her present throne, she completed her elementary education at the Sacred Heart and Central grade schools before graduating this year as an honor student at Granite City high school. She was ranked 89th out of a commencement class numbering approximately 800 pupils.

**Life Guard at Park Pool**  
During the last four years she has been a lifeguard and swimming instructor at the Wilson Park pool, working strictly on a volunteer basis for the first two summers.

In August of 1965 the new Miss Granite City became a fashion board member for a metropolitan department store, making publicly scheduled appearances as a model on a monthly basis. Only recently pictures of the green-eyed blond appeared in the latest Prom and Seventeen magazine issues.

After school hours this year at the senior high school Miss Huelskamp began juggling lessons during her second semester. With the help of two friends, she eventually developed a free-exercise routine, which was to become her talent presentation for the Miss Granite City Pageant on June 25.

"One week before the contest," said she with a smile, "we were afraid that I wouldn't be able to get out of a certain position with a continuing rhythmic motion." She finally worked the next step into her routine but not until after hours of modeling and gymnastics practice at the YMCA several days before the pageant.

Laughingly she mentioned, "I needed the exercise."  
**Recalls Judges Interviews**  
The petite model-gymnast remembered most of her two-minute interview at the judges' table during the afternoon hours before the annual event. "They kept asking us short questions, one right after the other. It seemed as though the questioning lasted two hours."

Indicative of the pressure all of the 10 contestants must have felt, was evident when one of the girls answered that Switzerland was her "favorite city." Miss Granite City's parents, Mr. and Mrs. Ralph Huelskamp, 2720 Edwards street, haven't had to worry about supplying the young miss with a wardrobe for her trip to the Miss Illinois contest, to be held in Quincy July 20-23.

Local merchants, friends and relatives have already presented

MISS GRANITE CITY 1966, Lois Jeanne Huelskamp, displays a part of the wardrobe which she will wear at the Miss Illinois Pageant to be held in Quincy July 20-23. Standing on either side of the new queen are her mother, Mrs. Ralph Huelskamp, and sponsor, Sam L. DiMatteo of the Reliable Loan Corporation.

ber with such gifts as a hair dryer, transistor radio, dresses, suits, a purse, hat and shoes, jewelry, perfume and cosmetics, a limited scholarship to the school of her choice, and various gift certificates.

**Restful Preparation**  
The past 10 days, though, have been used for rest rather than enjoyment.

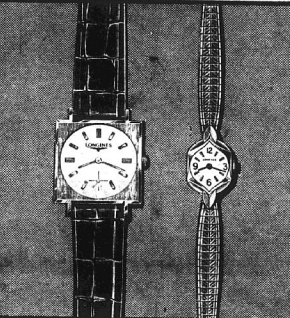

Last weekend Miss Huelskamp, who is hopeful of attending Southern Illinois University this fall, had four wisdom teeth extracted. "When I went to model

of week, my sponsor said 'did you get four wisdoms or do you always look like a chipmunk?'" Present times have been good to Miss Granite City, but her next two weeks will be spent in painstaking preparation for Miss Illinois competition. Mrs. Phyllis Crews, a former Miss Granite City candidate (1959), is directing her every step now, as she practices many more hours both on and off the stage.

"I was very happy and surprised to be named Miss Granite City . . . and at Quincy I'll be proud to represent the citizens and friends who have helped me so much."

But words don't need to be said. Lois Jeanne Huelskamp has an attitude which alone can tell her story.

## 45 Optimists Hear C. of C. Prexy Speak

Granite City's Optimist Club met in a one and a half-hour conference Thursday afternoon, as Wilbert Tribes, newly installed president, presided. Forty-five members attended the meeting.

Program chairman Frank Rea introduced Carl E. Mathias, president of the Tri-Cities Chamber of Commerce, who explained the activities, accomplishments and goals of the organization during the past year. Fred Covert, C. of C. executive director, told of its future plans to supplement Mathias' remarks.

President Tribes announced the appointment of the two co-chairmen for the annual Christmas tree sale, the one big fundraising project of the year.

The chairmen are Charles Baricivis and Jack Bernard. The president also announced that the board of directors is to meet Wednesday at 5 p.m. On Aug. 4 all members of the club will attend a 1 p.m. barbecue and meeting at the residence of Don Z. Farrington on Dunlop Lake.

Officers of the local Optimist Club are expected to attend the Central-Southern Illinois District meeting in Springfield on July 16-17.

## Witness Says He Saw Stamps Stab Guards

(Special from Springfield)

An ex-convict who witnessed the Nov. 23 riot at Menard penitentiary told a circuit court jury in Springfield Friday that he saw John W. Stamps, 26, of Granite City, stab three prison guards, one of them in the back, during the riot in the prison mess hall. One of the guards died of the wounds.

The trial at Springfield had not yet been resumed late this morning.

Stamps is on trial with three other convicts as a ringleader of the riot in which three guards were slain. Dudley Clark, 40, now on parole, said he saw Stamps stab Guard Paul Thomas Gross and then stab Guard Paul Simpson as he went to Gross' aid. He then stabbed Lt. Arthur Clark in the back, the other two guards.

Clark also told the jury that while he was a cellmate of Stamps, Stamps told him that he "had conned" the prison psychiatrist with stories of dreams.

Clark, the second witness called called by the prosecution in the death penalty trial, followed Gerald Fortner, another ex-convict, who testified that he saw Stamps in the middle of the riot and that Stamps apparently was a ringleader of the riot.

Clark also told the jury that while he was a cellmate of Stamps, Stamps told him that he "had conned" the prison psychiatrist with stories of dreams.

that now confronts many agencies and is certain to increase with the area's "population explosion."

The proposal met with mixed reactions.

All of the officials agreed that the garbage and trash problem has become a critical one and is still growing. Most of them, however, said they would require more detailed information as to possible rental rates and a detailed engineering study of the problem to be made within the next year by the city.

This is not something we expect to mushroom overnight," Donham said, adding that "such a program will take several years to accomplish." Meanwhile, he said, officials of every city as well as the county must determine soon what can be done in the meantime.

New Use Landfills.

Most communities are now using landfills, and some expressed satisfaction with their present arrangements.

Clifford pointed out that even if a plan is not made for immediate fulfillment, it is advisable to proceed with preliminary steps now to meet the need for a program in the years to come.

He explained that in a matter of a few years it may be impossible to secure sites for incinerators and landfills. If land was acquired now, he said, it will be much less costly than if such purchase was delayed five or ten years.

Clifford's proposal called for division of the county into six sections, two of these located in the eastern part of the county to be served by landfills only. This is rural territory and its requirement for service would be light, state last April.

## MORE ABOUT

### Burglars

were knocked off a counter onto the floor in the cafeteria during a burglary at Coolidge Junior high school, it was reported Thursday. Fifteen cents was taken from the custodian's room. Entry was gained through a rear window.

A trail of burnt matches indicated that burglars entered nearly every room of Lake School to check for valuable items Thursday night, it was reported at 6:55 a.m. Friday.

A roll-about fan was taken, and a gallon can of fruit cocktail was opened and half the contents eaten. All desks and rooms were left in an orderly condition. Entry was gained by breaking a classroom window, and the exit was through the north door.

Burglars who used a set of tools which they left behind broke into the Fox Brothers plant in Madison Thursday night and stole about 600 pounds of copper in two-foot coils. Aaron Tennenbaum of St. Louis who reported the theft at 7:30 a.m. Friday, said the metal was valued at \$300 to \$400.

Also missing was a water cooler valued at \$15, police reported. The thieves gained entry by cutting the lock on the plant gate, then used one of the company's hand trucks to haul the load to the gate where it apparently was placed in a nearby car.

Police said the burglars left a file, pliers, bolt cutter, a punch and a hammer near the gate. A payroll check and a trip lease in an envelope were stolen from a metal box in a rear door vestibule at the Gateway Transportation Co., 1555 State street, after 5:30 p.m. Wednesday, it was reported at 1:30 p.m. Thursday.

**1959 Auto Stolen**  
John Williams, 2832 Denver street, reported at 2:40 p.m. Sunday that his tan 1959 two-door auto was stolen from the parking lot at the Good Neighbor tavern, Niedringhaus avenue and Chestnut street, where he had left it at 2 a.m.

## Children's Theatre Performance Tonight

Excitement, entertainment and color are planned for tonight as the Granite City park district's Children's Theatre presents its first production. The play, entitled "Little Moon," has its curtain time set for 8:30 at the Wilson Park theatre, near Delmar avenue and 27th street.

Thirty-six children, ranging in ages from 9 to 15, have been rehearsing since June 6 in an effort to stage this evening's program. Assisted only by director Robin Bowers and his assistant, Walter "Flip" Spiceland, they have built the scenery, made costumes, learned how to put on their own makeup, and gathered the props.

Since the outset of their practice schedule, the young actors and actresses have been engaged in a 5-hour, day, five day week, which included two hours of physical and vocal exercises, one hour of instruction in the theatre arts and crafts, and two hours of rehearsal.

Bowers said that he has "never seen a harder working group" have a great desire, and we feel that they can't help but add to the culture of our city. They're going to make the theater come alive in Granite City during the coming years.

## County Per Diem Vote

An increase to \$20 in the per diem pay of county board members now receiving \$15 will be considered by the Madison County Board of Supervisors at 9:30 a.m. Wednesday, July 13, at the courthouse in Edwardsville. Also listed are a zoning appeals board per diem increase from \$10 to \$25, and Semi-annual corner and treasurer reports.

## To Close for Services

Madison County Federal Savings & Loan Association will be closed Tuesday morning in memory of late president, W. W. Huxel, whose funeral services will be at 10 a.m. The office will open at noon.

The play, which takes place in a Chinese setting, concerns a little girl from a starving peasant family who cleverly works her way into the house of a rich landowner. After many trials, including banishment as a thief, she persuades the landowner to hire the rest of her family, and thus "saves the day." The production was professionally written.

**JULY BRIDE.** Mrs. David Horal, who was married Saturday at First Methodist Church in Collinsville. A daughter of Mr. and Mrs. Alfred Stapleton of Collinsville, she is the former Nada Nolen.

## Miss Nada Nolen Becomes Bride of David C. Horal

An out-of-town wedding of interest here was that Saturday evening in Collinsville of Miss Nada Nolen, a daughter of Mr. and Mrs. Alfred Stapleton, Route Two, Collinsville, and David Collon Horal, whose parents are Mr. and Mrs. David W. Horal, also of Collinsville. The ceremony took place at the First Methodist Church with the Rev. Everett Weiss officiating. The bride wore a gown of Chantilly lace. The bodice was designed with a sabrina neckline adorned with pearls and sequins on lace scallops. The skirt, with a straight front panel and lace tiers on either side, fell into a chapel train. A double flower headpiece of silk illusion se-

cluded the bride's bouffant veil and she carried a bouquet of white and pink sweetheart roses and puffs of tulle. The attendants were Miss Sheryl Brewster, maid of honor, and David Horal, the bridegroom's father, best man. Miss Brewster wore a long gown of blue silk crepe. It was styled on empire lines, the skirt forming a sheath silhouette with a Watteau train of matching pink lace. The bodice had a scoop neckline and three-quarter sleeves accented with bows. A flower headpiece held in place a short veil of silk illusion. Pink mums and Better Times roses in a cascade formed the bouquet of the honor attendant.

Donald McCormick and Dennis Sweetenham served as ushers. A reception was held after the ceremony at the VFW Hall in Collinsville. The bride is employed in St. Louis. Her father is an employee of the Dow Chemical Co., in Madison. Mr. Horal is in the U.S. Air Force and the couple will live in Riverside, Calif. He is stationed at Sheppard Air Force Base in Texas.

## Miss Janet Hazel Mefford, Larry Blackwell Wed Friday

Miss Janet Hazel Mefford, a daughter of Mr. and Mrs. Harold Mefford sr., and Larry B. Blackwell, whose parents are Mr. and Mrs. Elbert Blackwell, Route One, were married Friday evening at Bethel Chapel.

The ceremony was performed by the Rev. Kenneth Brand. Mrs. Ruth Markham presided at the organ and accompanied the vocalist, Mrs. Brand, wife of the pastor, as she sang "Al-ways," "O Promise Me" and "Whither Thou Goest."

A gown of Chantilly lace was worn by the bride. It was made with a princess waist and featured a round neckline trimmed with pearls and sequins, long tapered sleeves and a bouffant skirt formed of tiered ruffles of lace ending in a cathedral train. A crown of pearl flowers held in place a mantilla veil of sheer illusion edged with lace, and the bride carried a large cascade of white carnations, an orchid and variegated ivy.

The church was decorated with altar bouquets of white flowers, palms and ferns and lighted with candles in branched candelabra. A reception followed at the YMCA.

Attending the bride was a matron of honor, Mrs. Janice Smith, and Miss Diane Blackwell, bridesmaid, both sisters of

**MRS. DAVID W. McILVOY,** the former Leanna Mary Palsgrove, a daughter of Mr. and Mrs. Herbert Palsgrove, 2311 Pontoon road, who was married Saturday morning at St. Elizabeth's Catholic Church.

## Leanna Palsgrove, Lieut. David McIlvoy Married

St. Elizabeth's Catholic Church. The bride, given in marriage by her father, was attired in a floor-length gown of white silk organza and Alencon lace embroidered with tiny pearls. A slightly scooped neckline and sleeves just above the elbow in length were deeply edged in lace. A mock bolero was outlined with deep edging of the lace and re-embroidered with seed pearls.

The slender A-line skirt was embellished with lace, as was the deep hemline, and a detachable court-length train of white organza was deeply pleated. As a headpiece, the bride wore a cluster of lace edged in pearls, with an organza roses secured to a tiered bouffant veil of silk illusion.

She carried a bouquet of stephanotis and pink sweetheart roses combined with garlands of variegated ivy. There was a corsage of pink roses and variegated ivy in the center.

Miss Sandra Russell was maid of honor, and the bridesmaids were Miss Connie Goff of Madison, Miss Jo Ellen Nebel, a sorority sister from East St. Louis, and Miss Paul Urban, a cousin of the bride, of Collinsville. The flower girl was Wendy McIlvoy, sister of the groom.

Attending Lt. McIlvoy as best man was Fred Berns of Ocenoe, Ill. Groomsman were David Burke of Joliet, Dennis Stimpson of Rock Island and Thomas Urban of Madison, a cousin of the bride. Serving as ushers were Thomas McIlvoy, brother of the groom, and John Berns.

The honor attendant and bridesmaids were dressed alike in floor-length gowns of pale silk organza over pink taffeta. The fitted bodices featured scooped necklines with tescup sleeves and A-line skirts. High empire waistlines were defined by pink satin ribbon, with bows accenting the front and back of the gowns. They wore picture hats covered with pale pink silk organza, with satin bows in the back.

The tiny flower girl was similarly dressed in a rock to match the bridesmaids, and carried a miniature bouquet matching those of the bridesmaids. The attendants carried baskets of pink pom poms, pink carnations and seashell staples with variegated ivy and foliage, each tied with different colored satin ribbons.

For her daughter's wedding, Mrs. Palsgrove chose a street-length sheath dress of mint green embroidered linen. Her accessories were in a matching color. The bridegroom's mother selected a beige embroidered sheath dress with pink accessories.

Both wore corsages of pink cymbidium orchids. On Friday evening, members of the wedding party were entertained at a rehearsal dinner given by the groom's parents at the Rose Bowl.

The former Miss Palsgrove graduated from St. Teresa's Academy in East St. Louis and attended St. Louis University. Her husband was graduated from the University of Illinois in June 1966 and received his earlier education at Assumption high school, East St. Louis. He will begin pilot training with the Air Force in late July.

After a wedding trip to the Smoky Mountains, the newlyweds will return here to await final Air Force orders for the groom.

## Corps of Engineers To Study Tolls Madison's Bridge

A preliminary study by the U. S. Army Corps of Engineers of the reasonableness of tolls on the Madison-owned Chain of Rocks Bridge will be made immediately, it was announced Saturday at St. Louis by Col. James B. Meador Jr., district engineer.

Col. Meador said the study was requested by the Missouri State Highway Commission that contemplates the tolls should be eliminated. Madison Mayor Maestas announced several weeks ago that the city has no intention of eliminating the toll charges.

The new free bridge a few hundred feet north of the Madison bridge now is expected to be opened to Interstate Route 270 traffic about Sept. 1 after considerable delay.
